INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Acquisition Service. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Acquisition Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. Education/Experience Substitution Policy

We recognize that successful performance depends on having personnel with the right skills and experience. These skills and experience are acquired through a proper mix of education and professional experience. We have found that skills required to support advanced technology efforts, today's problems and tomorrow's challenges, are not always supported by the traditional combination of formal education and work experience. Therefore, we have incorporated substitution allowances between equivalent education and experience in order to provide the quality of services required by the customer at the most reasonable price.

The following tables present substitution equivalencies for education and experience requirements.

- Substitutions for Educational Requirements

Additional years of related experience may be substituted for degree requirements.

Degree Requirement	Equivalent Experience Substitution
High School	GED
Associate	High School plus two years related experience
Bachelor's	High school plus four years related experience or Associate's degree plus two years related experience
Master's	Bachelor's degree plus two years related experience or Six years related experience
Doctorate/Ph.D	Bachelor's degree plus four years or Master's degree plus two years or Eight years related experience

- Substitutions for Work Experience Requirements.

A related degree may be substituted for years of related work experience.

Degree	Equivalent Years of Experience
Bachelor's	Two
Master's	Four
Doctorate/Ph.D	Six

* Successful completion of higher education which has not yet resulted in a degree may be counted as 1 for 1 year's of experience for each year of college completed.
